Bachelor of Engineering in Information Science

New Horizon College of Engineering • Bangalore • 2023 • 7.67

Pre-University Course in PCMB

Agastya PU College • Haveri • 2019 • 79%

SSLC

Lions English Medium School • Haveri • 2017 • 91%

PROJECTS

Kanban-App-Node

- Developed a full-stack Kanban application using Node.js for the backend and MongoDB as the database.
- Designed and implemented a responsive user interface using Next.js for the frontend with shadcn UI library
- Implemented RESTful API endpoints for managing Kanban boards and tasks.
- Configured and maintained the MongoDB database for efficient data storage and retrieval.

Kanban-App-Spring

- Designed and Developed a Kanban Application with a Spring Boot backend.
- Integrated Next.js, a React framework, and shadcn UI library for the frontend
- Crafted RESTful API endpoints using Java and Spring Boot, ensuring efficient management of Kanban boards and tasks.
- Engineered a robust backend infrastructure, utilizing Spring Boot, MySQL for database management, and Hibernate for seamless data integration.

Crypto-Dash

<https://crypto-dash-omega-one.vercel.app/>

- Developed and designed a dynamic React application to provide users with real-time information on cryptocurrencies.
- Utilized the CoinGecko API to fetch live data for various cryptocurrencies, including exchange rates, market cap, and historical price trends.
- Implemented a user-friendly UI that lists and displays detailed information about different exchanges and available coins.

Responsive-Dashboard-Application

<https://responsive-dashboard-app.vercel.app/>

- Developed a responsive dashboard application using React.js.
- Implemented a user-friendly and responsive design for optimal viewing on various devices.
- Integrated Chakra UI components to create a visually appealing and consistent user interface.

SKILLS

HTML, CSS, React, Next.js, Shadcn UI, Linux
Java, Javascript, Node.js, Spring Boot, Express.js
